Declaration by Candidate.

(To be signed in presence of the Medical Board.)

I declare all the above answers to be, to the best of my belief, true and correct.

I will fully reveal to the Medical Board all circumstances within my knowledge that concern my health and fitness for the appointment for which I am a candidate.

I am fully aware that by wilfully suppressing any information I shall incur the risk of not obtaining the appointment, or of losing it if granted.

Member of Medical Board, India Office.

Date—

Preliminary Examination of Candidates by the India Office Medical Board.

Candidates for appointments may, if they wish, undergo a preliminary examination by the Medical Board, which meets at the India Office, under the following conditions:—

(a) Applicants must be introduced to the Chief Secretary of State, India Office, Whitehall, London, accompanied by a letter of introduction, and a statement as to the particular appointment which the candidate desires to obtain.

(b) Candidates must pay their travelling expenses.

(c) It must be understood that the opinion of the Medical Board, which will be communicated by the Board to the candidate at the end of the examination, is solely for the candidate's own information and is not an official finding. The Board, if they consider a candidate unfit, will exercise their discretion as to referring him to the preliminary examination at which their opinion is based. No further interviewing can in any way be given to the Medical Board's finding, which will be confined solely to the physical fitness of the candidate, and any question as to the propriety of his appointment is purely physical. A candidate is to be appointed to the particular service which he desires to enter, should be introduced in writing to the Chief Secretary of State.

(d) Candidates considered to be unfit by the Medical Board at their preliminary examination are not bound to accept its opinion, but may, at their own risk, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board prior to the examination or to their appointment.

(e) As the preliminary examination by the Medical Board is held solely for the candidate's information, a candidate who is introduced after such an examination that he is physically fit will have no further work to do in respect of his final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or proved undetected at the preliminary examination or for other reasons.

REGULATIONS FOR CANDIDATES ATTENDING THE UNIVERSITY EXAMINATIONS IN 1920.

Candidates for University Examinations are required to observe the following instructions very carefully.—

1. Seating should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for distributing the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are repeatedly suffering from attacks of illness of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each answer book. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to a paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out, and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. Candidates are forbidden to ask questions of any kind during the examination. They are further prohibited to communicate with the examiners; should they do so, their answers will not be valued and their conduct will be reported to the Syndicate for disciplinary action.

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, data, blotting pad, card, or manuscript, or paper of any description and thus making use of any of those articles introduced into the room by themselves or by any one else, from communicating with or copying from each other; and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be summarily sent out of the room forthwith, and his conduct will be reported to the Syndicate. Each candidate stands the risk of having all his answer papers for the examination for which he has appeared reported by the Syndicate and of being debarred from sitting for the University examinations for a period as the Syndicate may decide.

The use of slates at University examinations is not permitted except to make working papers in Mathematics. The use of mathematical instruments which answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Candidates' Mathematical and Physical Tables will be supplied to candidates in Mathematics, Physics, Chemistry, Classical Technology and Descriptive of the Sciences. Candidates B.A. (Science), B.Sc. (Science) and Pre-Registration examinations only. Candidates should not bring into the examination hall their own copies.

9. Candidates for examinations in Science subjects shall submit their laboratory note-books to the Examiners concerned on the first day of the practical examination. Each of the candidates taking Botany as the main subject for B.Sc. Degree Examination must submit at the practical examination his laboratory note-book, a collection of the several plants collected and preserved by himself and a record of the laboratory work. The candidate should also bring the laboratory note-books of the date of the examination.

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is required to the instructions regarding rough working and loose sheets of paper pinned on the answer books. All rough working must be done on the left hand page of the answer books themselves against the respective answer. The number of each question as given in the question paper should be noted both in the margin and in the centre of the page of the answer book just above the respective answer. No separate books for rough working will be supplied to candidates. Papers must not be detached from the answer books of candidates. If the ordinary answer books are found small, extra, additional books will be allowed and these should be securely fastened to the answer books.

12. When candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period permitted for each particular paper of the examination, such should stand up in his place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.

13. Candidates sitting for the examinations at the different centres should apply to the Chief Superintendent at the respective centre for their hall tickets three days before the commencement of the respective examination. Any particulars noted in the hall ticket delivered from their given in the application for the examination should be immediately reported to the Chief Superintendent by the concerned candidate.

They should also be prepared to place their signatures upon the identification certificates produced by them before the Chief Superintendent at the respective centre. Acting Registrar.University College, Welles,
1st January 1910.

ERRATUM.

In the list of teachers' certificates completed during the year 1909, published on page 1 of the Supplement to Part I of the Fort St. George Gazette, dated 17th January 1910—

Under Royal Examiners' names, No. 2 column b, for "Gordon, George Henry, M.B. & B.S." and "Gordon, Royal Examiners' Examiners' Examiners."

M. F. H. THOMPSON,

Registrar of Examiners, Camp and Bangalore.
Bangalore, 26 February 1910.

was expected to reach the highest level for any month since June last year and estimates of the probable consumption for January are some favourable remark. Manufacturers are, however, reported to be covered of ample supplies, in view of the increase in the exportable percentage from January to which it had set a higher lower standard price. The outlook for both tea and rubber appears to be relatively favourable on the whole and there is reason to anticipate an increase in revenue from both crops crop club of 1933 although it would be perverse to expect a continuance of profits to the level of 1932.

Goverment.

The demand for groundnuts was weak and quotations improved during the month. The average wholesale prices of standard varieties at the main producing centres were as follows:—

No. made of 50 lb.	
25th November 1933 ..	No. 15-4-6 to No. 20-10-0
22nd December 1933 ..	No. 15-4-6 to No. 15-5-0

Prices and Rates.

Prices for paddy and rice had a rising tendency on account of the anticipated poor entrance of the paddy crop in the Northern Districts due to the recent cyclone. Locally, however, prices for paddy declined slightly in the Cinnabar, while in the main points of paddy and rice were firm with a tendency to rise. The average wholesale prices of standard varieties at the main producing centres were as follows:—

In the paddy bag of 110 lb.	
25th November 1933 ..	No. 4-4-0 to No. 5-2-0
22nd December 1933 ..	No. 5-12-0 to No. 5-2-0

In the rice bag of 110 lb.	
25th November 1933 ..	No. 8-0-0 to No. 7-10-0
22nd December 1933 ..	No. 8-10-0 to No. 7-10-0

Bamboo rice, 100 lb. bag.	
25th November 1933 ..	No. 6-4-0 to No. 6-10-0
22nd December 1933 ..	No. 6-10-0 to No. 6-10-0

Cinnabar rice (paddy) bag of 110 lb.	
25th November 1933 ..	No. 7-10-0 to No. 7-10-0
22nd December 1933 ..	No. 7-10-0 to No. 7-10-0

Covered Passengers.

Owing to good arrivals and low European and Indian demand, the market for Quindary, reached our ports and before prices dropped and showed a weak tendency during the latter half of the month. Owing to limited arrivals and low European demand, the market for Calcutta remained fairly steady throughout the month. The tendency of the Cooch and Sibs Sagar market was weak owing to poor demand. Prices for sugar and coconut oil were depressed early in the month owing to large arrivals, but there was some activity in both markets later as and quotations improved.

Covered.

Leading markets did not show any marked movement during December and local rates also remained fairly steady.

Tinny.—There had been continued and moderate buying by some of the Colonisers and Unimproved Mills at rates ranging from Rs. 120 to Rs. 130 according to condition. Also some lots of crop previous to 1931-32 came from the interior and were sold to these Mills at various prices. No further business has been done as yet in the new crop, i.e., of 1932-33.

The outlook for the Tinny new crop remained satisfactory until the end of the month when business with the advent of fair sales the situation improved considerably.

Cinnabar.—The Cinnabar Mills were the only buyers and prices ranged from Rs. 205 down to Rs. 200 according to quality. These Mills were also seen to buy Cinnabar grown in the southern districts.

Most of the usual stocks of both Tinny and Cinnabar cotton are now in the hands of other operators, so that the price and quality of the cotton is not expected to fall further owing to the very satisfactory crop outlook in the Colonisers and Unimproved districts.

There had been no demand at all from outside these districts. On the other hand, the South Indian Mills bought some of the new crop. Several cottons they found in replacement of local cottons and in view of the crop failure in Cinnabar.

Rubber.

On receipt of information that the Indian Rubber Corporation, Limited, have fixed maximum base price for raw rubber at Rs. 3-0-0 per hundred there was Indian activity in the local market and prices increased to a very high extent and up to the level of replacement cost of new season's rubber. Dealers purchased large quantities from local factories to cover their December requirements. During the third week of December prices again rose on receipt of advice from Ceylon, Borneo and Malaya that the North Indian rubber was available at less than Rs. 10 per hundred. The market was very strong and at local prices reached a very high level, dealers began to speculate and purchased small quantities of Indian rubber for December and early January shipment.

There was a sudden reaction at the close and prices dropped by about seven annas per unit, owing to the downward tendency of the European market which was largely due to the release of a second issue of about 25 lakhs of bags by the Europeans and a rumor that the Syndicate will take over all selling from 1st January 1934. The rubber merchants at Bombay, Ceylon and Malaya protested against the proposed change and demanded a ban.

The market closed weak and fell owing to uncertain conditions prevailing. Some dealers are, however, anticipating a reaction in the European's better prices after 1st January.

Madras prices of North Indian rubber ranged from Rs. 25-0-0 to Rs. 26-0-0 per bag of 2 cwt., in December as compared with Rs. 27 to Rs. 28-0-0 in November.

Arrivals of North Indian rubber in West Coast markets were not heavy and local factories supplied most of their immediate requirements. These markets were strong and prices gradually increased in sympathy with Ceylon prices to such an extent that dealers considered a full available and therefore tried to sell freely at prevailing rates. The market closed dull and weak.

All other southeast markets were strong and demand was good.

General.

In view of the former conditions that prevailed for new crop Indian sugar and of an anticipated shortage of sugar during the coming year, there was a reaction against the new crop. Prices in general were held and considerable quantities for shipment to India during July and August and a certain quantity for further shipment. Rates for India and all other markets have been raised.

TANNED HIDE AND SKIN.

Tanned Hide.—There was a good demand throughout December and during the latter part of the month, prices became firmer, in spite of the Christmas holidays. Market prices at the end of December were as follows:—

Prime of 14-25 d.	Prime of 14-25 d.
and Green 14-25 d.	and Green 14-25 d.

Tanned Goat Skin.—Business during the month was better with an all-round improvement in prices. Though the London public auction which took place during the first week of the month showed rather slow, a break occurred at a later date which showed that a fair trade existed. At the conclusion of the sale, particularly all western and weights showed an advance of 2 d.—4 d. over previous sale prices, including some light weights which had been depressed for some time. In Madras leather and medium weights found the best market and

STATISTICS—CROPS—SUGARCANE—1938— TEND TO FINAL REPORT.

The average of the season under sugarcane in the Madras Province during the five years ending 1936-37 has represented 28 per cent of the total area under sugarcane in India.

1. The area planted with sugarcane up to 31st December 1938 is estimated at 95,500 acres. When compared with the corresponding estimate of 97,500 acres for the previous year and the actual area of 1,75,000 acres according to the Season and Crop Report, the present estimate reveals a decrease of 1.6 per cent and 71 per cent respectively. The estimate of the previous year fell short of the actual area by only 455 acres at 0.3 per cent.

2. The present estimate of area extends the second harvest for 6,100 acres. The area under sugarcane in Vengaloor, Bellary, Salem, Coimbatore and Trichinopoly.

3. The decrease in area is comparable with the actual area of 1937 in per hectare and Crop Report shows in all districts outside North Arcot, Salem, Coimbatore, Trichinopoly, Cochin, Madurai, Namakkal and the West Coast.

4. The crop suffered to some extent as a result of the cyclone in November in East Godavari, West Godavari and Nellore. In parts of North Arcot the crop was affected by floods. The growth of the crop was also affected by the failure of the North-East monsoon rains in some of the other important districts.

5. The harvest has just commenced and yields below normal are expected in all districts outside Coimbatore, Bellary, Chittoor, Salem and Madurai where the yield is expected to be normal. The average yield for the province is calculated at 91 per cent of the average as against 96 per cent in the previous year according to the Season and Crop Report. On this basis, the yield is estimated at 24,115 tons of sugarcane as against 26,655 tons estimated in January 1938, a decrease of 9.1 per cent and an average 19,599 tons estimated in the Season and Crop Report of the previous year, the decrease in this crop, amounting to 3.3 per cent.

6. The wholesale price of sugarcane per imperial cwt. of 22 1/2 lb. (equivalent to 22 1/2 lb. net) as reported from important markets on 23rd January 1939 was Rs. 8-1-0 at Madras, Rs. 7-5-0 at Chittoor, Rs. 7-0-0 at Salem, Rs. 7-1-0 at Coimbatore, Rs. 6-12-0 at Erode, Rs. 6-10-0 at Mangalore, Rs. 6-0-0 at Changanassery, Rs. 5-11-0 at Trichinopoly, Rs. 5-2-0 at Coimbatore and Rayachoti, Rs. 5-5-0 at Vengaloor, Rs. 4-12-0 at Bellary and Rs. 4-10-0 at Vengaloor. When compared with the prices published in the last report, i.e., those which prevailed on 1st December 1938, these prices reveal a rise of about 28 per cent at Erode, 22 per cent at Chittoor, 91 per cent at Mangalore and 10 per cent at Vengaloor and a fall of about 37 per cent at Rayachoti, 31 per cent at Vengaloor, 22 per cent at Coimbatore and 8 per cent at Trichinopoly; the prices showing a decrease at Vengaloor, Adair, Bellary, Changanassery and Namakkal.

Act No. XXI of 1938—The Extension of the Malabar Temple Entry	16

BY APPOINTMENT,
Madras Chief Justice: *Act No. XX of 1938—Temple.*

Acts of the Madras Legislature.

The following Act of the Madras Legislature received the assent of His Excellency the Governor on the 18th January 1939 and is hereby published for general information:—

ACT No. XX OF 1938.

An Act to remove the disabilities of certain classes of Hindus in regard to entry into temples in the district of Malabar.

WHEREAS the disabilities imposed by custom and usage on certain classes of Hindus in respect of their entry into, and offering worship in, Hindu temples should be removed,

AND WHEREAS, however, doubts have been entertained whether the trustees of such temples have the power in law to make any such innovation in practice,

AND WHEREAS it is just and expedient that these doubts should be removed and the trustees should be empowered by law to extend to all classes of Hindus the right of entry into, and worship in, temples if the Hindus in the locality who are now entitled to such entry are generally in favour of such extension,

AND WHEREAS, further, such extension of rights and privileges in Hindu temples to classes hitherto excluded has been recently ordered and peacefully brought into effect in one part of Kerala, and by reason of common traditions and identity of language, customs, forms of worship and the like, the removal of the disabilities aforesaid has been not only more insistently demanded, but also made more easy of accomplishment in the first instance, in another part of Kerala,

It is hereby enacted as follows:—

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to levy a tax on all retail sales of motor spirit in this Province. It is proposed to levy the tax on a gallonage basis at one anna and six pies per gallon or at such other rate as may be fixed by a notification to be published in the Gazette. The tax need be paid only once and any motor spirit in respect of which the tax has already been paid will be exempt from further taxation.

Provision has been made for the compulsory registration of all dealers and retail dealers in motor spirit. No one who is not registered as a retail dealer will be permitted to sell such spirit in retail. The tax will be levied on all retail sales of motor spirit. Monthly returns are required from the retail dealers. The tax is to be paid before the submission of the return, and evidence of such payment is to accompany the return. Where an incorrect or incomplete return is submitted or where no return is submitted, power has been taken to determine the tax payable by the retail dealer. In default of payment of the tax within fourteen days after demand, it will be collected as an arrear of land revenue. An alternative method of collecting the tax from the wholesale dealer himself, where he consents to the adoption of that course, has also been provided for. Dealers who are not retail dealers are also required to submit returns to the prescribed authorities. The object of this provision is to facilitate the check of the accounts

of retail dealers and to ensure that the tax due is fully collected. Power has been taken to inspect the accounts and the stocks of motor spirit kept by dealers and retail dealers.

Provision has been made for an appeal to the Board of Revenue against orders of the District Collector and to the District Collector against orders of other executive officers. The Board will also have a general power of revision over orders which are not orders of a Court or Magistrate.

Fines have been prescribed for infringement of the provisions of the Bill.

(d) the duties and powers of Inspecting Officers appointed under section 5; and

(e) any other matter for which there is no provision or insufficient provision in this Act and for which provision is, in the opinion of the Provincial Government, necessary for giving effect to the purposes of this Act.

(5) In making a rule under sub-section (1) or sub-section (2), the Provincial Government may provide that a breach thereof shall be punishable with fine not exceeding fifty rupees.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to levy an electricity duty with a view to augment the revenues of the Province. An electricity duty is being levied both in Bombay and Bengal—See Part II of Bombay Act II of 1932 and Bengal Act X of 1935. Under those Acts a duty of six pils for each unit of electrical energy consumed is being levied on consumers of electricity for lights and fans and is collected from them by the companies supplying the electricity. Under the present Bill, the duty is proposed to be levied on business selling energy instead of on the consumer. Provision has however been made to enable the licensee to reimburse himself from the consumer in cases where such reimbursement is permitted by the Government as just and proper. Small business, that is to say, those supplying less than 15,000 units per annum or 200,000 units per annum will be exempt from the duty. No duty will be levied on sales of energy at less than two annas per unit. The provisions of the Bill are based for the most part on those contained in the Bombay and Bengal Acts mentioned above.
